BHSP

Bath High School Preservation is reality!

A library operates in one wing. The historic site exhibit hall is in another. Pirate Hall has become a community gathering spot. Now, we're focusing on the remaining auditorium wing. Plans are being developed for a multipurpose public assembly hall. The project has the backing of Gov. Roy Cooper and legislative leaders who have included versions of matching-grant support for the project in their budgets. BHSP is optimistic that this broad support will translate soon into a state grant as well as generate other sources of backing for the project. We encourage you to help by contacting members of the legislature and the state Department of Natural and Cultural Resources to urge them to fund the project. Additionally, we encourage communication with county and municipal officials and seek their support for the project. On the other side of this card is information to help you contact key state and legislative officials.

Who to contact :

The Town of Bath is on the record in support of the auditorium project. Please urge the Beaufort County Board of Education and County Commissioners to do the same.

Rep. Keith Kidwell	Sen. Erica Smith
